

## MODULE HANDBOOK DESCRIPTION

Module designation	Electrical Materials	
Code	FBS1105	
Semester(s) in which the module is taught	1 / first year	
Person responsible for the module	Abdul Natsir, S.T., M.T	
Language	Indonesian	
Relation to curriculum	Compulsory	
Teaching methods	lectures, small group discussion, case base method	
Workload (incl. contact hours, self-study hours)	Contact minutes every week, each week of the 16  weeks/semester:  • Lectures : 2 x 50 minutes  • Exercises and Assignments: 2 x 60 minutes  • Private study : 2 x 60 minutes.  total study hours = 5 hours 40 minutes/week	
Credit points	2 (~ 3,2 ECTS)	
Required and recommended prerequisites for joining the module	-	
Module objectives/intended learning outcomes	1. Student are able to understand the material properties, interatomic bonding, the structure of crystalline solids, dielectric, and classification of materials	PLO2
	2. Student are able to analyse the conductor, semiconductor, isolator, superconductor, magnetic material and specific material.	PLO2, PLO3
	3. Student are able to design the conductor, isolator, magnetic material, and specific material	PLO2, PLO8

Content	<ol> <li>Introduction of material properties</li> <li>Atomic stucture and interatomic bonding</li> <li>Structure of Crystalline Solids</li> <li>Dielectrics</li> <li>Classification of Electrical Materials</li> <li>Conductor</li> <li>Semiconductor</li> <li>Superconductor</li> <li>Isolator</li> <li>Magnetic Material</li> <li>Specific material</li> </ol>	
Examination forms	<ul><li>Written case study</li><li>Written and oral project study</li><li>Essay midterm and final test</li></ul>	
Study and examination requirements	The final grade in the module is composed of;  a. Case assessment : 35 %  b. Team-Project assessment : 25 %  c. Written Midterm assessment : 20%  d. Written Final assessment : 20%  Students mush have a final grade of 65% or higher to pass	
Reading list	<ol> <li>William D. Callister, Jr., David G. Rethwisch, 2010. Materials Science and Engineering an Introduction, John Wiley &amp; Sons Inc., USA.</li> <li>Rudy Setiabudy, 2007. Material Teknik Listrik, Penerbit Universitas Indonesia, Jakarta.</li> <li>Tata Sardia, dan Shinraku Saito, 2000, Pengetahuan Bahan Listrik, Pradnya Paramita, Jakarta.</li> </ol>
